

“Lazy Dog's Guide To Promoting Your Webcomic”

- How to promote your webcomic *without any online social skills.*** (This method does not require time-consuming social interaction. So it's quick. And it's free. All you do is **submit or register** your webcomic and website at these webcomic niche sites. Just check ✓ them off as you go. Doing this and updating *Art of Spam* comic twice a week got PageRank of 2 in 3 months. Note: I've no backlinks outside of this registration process. So it's a good place to start.)
